1	10/11/2025	Multiple Residents	Highways	Drains issue, STWA advised Highways assets. Property nearly flooded, reported via FixMyStreet circa 12 months ago	LM	8/9/26 - Mick Rockett (Highways) advised Job 1760623 has been raised for the gully/drain works. I am currently waiting for a start date from the contractor and am actively pushing to have the issue resolved as soon as possible.	Yes - Highways Dept.			IN PROGRESS
2	10/11/2025	Multiple Residents	Highways	Pavements	LM	8/9/26 - Mick Rockett advised I understand that vegetation clearance works on the B5062 are planned to commence during the week beginning 14th September.	Yes - Highways Dept.			IN PROGRESS
3	07/04/2025	Multiple Residents	Planning	Corbet Arms Planning Application 24/04016/FUL	Clerk/LM	Planning application 24/04016/FUL granted permission for the extension of The Corbet Arms Public house, attached to the planning permission granted was a planning condition that require the applicant prior to commencement to submit a scheme detailing a Traffic Regulation Order, and carry out the works prior to the extension being brought into use. At the request of Uffington Parish Council there has been ongoing dialogue between Shropshire Council officer (Traffic Engineer - Dave Gradwell and myself) and representatives from the Parish Council in relation to the likely extent of the works. However, at this time we have not received a discharge of condition application from the Corbet Arms, I have written to the planning agent but not received a response. The Parish Council are keen to see a scheme implemented and therefore if the works at the Corbet Arms does not come forward they have requested Shropshire Council look to implement a scheme. This would however be subject to funding and formal consultation process. Regrettably, at this time we do not have a timescale for the delivery of double yellow lines either by the applicant or Highway Authority.	Yes - Highways Dept.			IN PROGRESS
